Berlin, Germany | +49 15258487656 | david.poussif@gmail.com | www.DavidPoussif.com

PROFILE

Technical Project Manager with 10+ years of experience managing complex enterprise rollouts and scaling technical solutions. Strong track record of bridging the gap between software engineering and real-world operational realities. Combines hands-on startup execution with advanced training in AI and Computer Vision to drive successful, large-scale deployments.

KEY SKILLS

- **Deployment & Operations:** Enterprise Rollouts, Vendor Management, Stakeholder Governance, Cross-functional Leadership.
- **AI & Tech:** Computer Vision (CNNs), Machine Learning, Databricks, Python, API Integrations.
- **Data & Tools:** SQL, Looker, Tableau, PowerBI, Jira, Agile/Scrum.
- **Languages:** English (Native), Spanish (Native), Italian (C2), German (B2).

EXPERIENCE

QA Manager / Technical Project Manager / Ubisoft Kolibri Games - Berlin, Germany

Sep 2021 – Apr 2025

- Managed the end-to-end integration of a Machine Learning SDK into live operations, coordinating cross-functional technical teams.
- Bridged software and operational reality by coordinating human-in-the-loop training, using real-world data to retrain models.
- Drove cross-functional alignment and established scalable documentation, instituting mandatory reviews for sustained process changes.

Technical Project Manager / SGSCO - Hull, UK

Jan 2019 – Sep 2021

- Led phased enterprise deployments, successfully accelerating high-volume project timelines to cut the standard 6-week schedule in half.
- Acted as the primary interface between technical teams and clients, translating digital 3D rendering designs into physical product realities.
- Ensured scalable deployment models and managed external dependencies to optimize project quality and delivery speed.

Technical Project Manager (Freelance) | CashU, FLMotors, Findcourse.com - Dubai, UAE

Nov 2016 – Jan 2019

- Worked closely with startup leadership to execute market expansion, negotiating relationships and scaling operations across 12 new regions.
- Managed the stakeholder alignment and rollout of a real-time Machine Learning fraud-prevention tool for the finance sector.

Technical Project Manager | eKomi - Berlin, Germany

Nov 2014 – Nov 2016

- Directed global API deployments for VIP enterprise clients, scaling custom software solutions across distributed cloud networks.
- Navigated strict corporate requirements to secure vendor liability waivers and establish reliable, compliant technical blueprints.

SELECTED AI & PRODUCT PROJECTS

- **LeukoVision (Computer Vision):** Engineered an advanced deep learning platform utilizing CNNs and ResNet50 to classify and analyze complex visual data.
- **Enterprise RAG Agent:** Built an autonomous chatbot using LangGraph and Gemini to optimize scalable documentation and internal knowledge workflows.
- **Predictive Automation:** Engineered an XGBoost pipeline integrated with Claude AI APIs to seamlessly automate retention workflows.

EDUCATION

- Data Science & AI – Sorbonne University (2025)
- Electronic Engineering – Politecnico di Milano (2010)
- Certifications: SAFe Certification, AWS Cloud Practitioner
